

The care and safety of loved ones with special needs is a rising concern, especially when those loved ones wander or elope. These individuals often do not know where they are going, are unaware of their surroundings, and may not be able to communicate their name or address. As Sheriff, I want to help you keep your loved ones safe. Our department has teamed up with Angel Sense, a leader in GPS Tracking for special needs, with their help we will give families security, knowing they will have access to their family member's location and welfare at all times. Autism and elderly wandering is a national safety issue. With the use of AngelSense's GPS technology, search times will reduce remarkably and individuals and families will enjoy an increase sense of well-being.

AngelSense

A SAFER WORLD FOR YOUR
 LOVED ONES WHO WANDER

PASSAIC COUNTY SHERIFF'S OFFICE
 SHERIFF RICHARD H. BERDNIK

The Only GPS & Monitoring Solution Designated Specifically for Individuals with Special Needs

With all-day, proactive monitoring, **you know your loved one is safe**. You see where they are at all times, and receive **instant life-saving alerts** if they wander away from safety. You can also check in to hear how they're doing and talk to them with a single click.

With AngelSense, caregivers **gain immeasurable peace of mind** and device wearers gain the **independence and confidence** to move about more freely.

All-Day Monitoring

See all locations, arrivals & departures, travel times and transit speed

Sensory Friendly Wearables

Attach device to clothing discreetly and securely

Real-Time Mapping

Know when your loved one is on the move and see their exact route in real time

Unknown Place Alert

Get an immediate alert if your child is in an unfamiliar and potentially dangerous place

First Responder Emergency Alert

Send a link to the real-time location of the child, to a predefined group or any search and rescue team member

Alarm

Activate an alarm on the device, to locate your child when nearby in a crowd or when hiding

2-Way Voice

Talk to your child at any time, without them needing to "pick up" or click anything

1-Way Voice

Check-in to hear that your child is well

Indoor Search

Know what part of the school or shopping mall your child is in

Expert Customer Support

Our Customer care team is made up of special needs parents that use AngelSense with their own children

- **Productive Monitoring**
- **Immediate Alerts**
- **Reliable Mapping**
